Committee Named to Enlarge
the License System For
General Fund.

At a meeting of the council Friday night, all being present, the council ordered the transfer of the Lafam bequests of \$30,906 05 in cash and \$22,000 in bonds to the custody of Treasurer George DeTreville and authorized the deposit of \$24,000 of the funds in savings banks temporarily.

The following apportionment of the general fund was recommended by the mayor and referred to the Finance Committee:

Police, fixed.....	\$11,500
Fire Dept., fixed.....	4,000
Salaries, fixed.....	3,500
Cemetery, fixed.....	1,500
Lights, fixed.....	7,200
Water, fixed.....	5,000
Courts, Estimated.....	3,500
Fire Equipment, Est.....	1,600
Work House, Est.....	3,200
Charity, Est.....	1,000
Bridges, Est.....	500
Note in Bank.....	3,000
Incidentals.....	1,000
Streets and Sewers.....	15,000

Total.....\$66,500

This is based on the following revenues:

From Taxes.....	\$32,500
From Saloon Licenses.....	22,000
From Other Licenses.....	5,000
From Court.....	6,000
From Cemetery.....	1,000

Total.....\$66,500

Treasurer DeTreville submitted a semi-annual report showing the following receipts for six months:

From taxes.....	\$ 6,000
From licenses.....	15,000
Notes discounted.....	12,000

Total.....\$33,000

The expenditures amount to \$38,000 in six months. The taxes to be collected by Nov. 1, will be \$45,000, or \$3,500 after paying back the borrowed money. Practically all of the rest is taken up in the fixed expenses and \$14,200 already spent on streets and sewers. The street fund of \$15,000 has been already exhausted and the proposition of raising money to carry on the street work is confronting the council. A committee consisting of Councilmen Haydon, P'Pool and Dabney was appointed to revise the license ordinance, increasing licenses and adding new ones on all lines authorized by law. The street fund has been drawn upon by the Tenth street sewer \$4,500, and the Second street bridge and dam have cost about \$3,000. The special levy for bituminous streets will raise \$8,500, which is not included in the general fund, nor is \$20,000 for schools and \$5,000 for the sinking funds. Of the total revenues of the city of \$100,000, a little more than one-fourth is derived from licenses, or about 40 per cent of the general fund out of which the running expenses of the city are paid.

The council also gave first passage to an ordinance ordering down concrete payments on several streets.

Fell Dead at Water's Edge.

Glasgow, Ky., July 19.—Miss Mayme Proffit, a prominent young lady of Etoile, fell dead while starting to the creek to be baptized. With her parents, a party of friends and the minister she drove to a creek near the home, alighted from the buggy and started into the water, when she fell dead.

NEW CHURCH
AT LAFAYETTE

Is to Be Dedicated Next Sunday, July 28th—Dinner On the Ground.

ORGANIZED ONE YEAR AGO.

Rev. H. W. Elliott, of Trimble County, is to Preach the Dedictory Sermon.

The members of the Christian church at Lafayette are looking forward with much interest to the crowning event in the brief history of their organization, the dedication of their house of worship. The congregation effected an organization about a year ago and there are now 30 names on the church roll. Rev. H. J. E. Stevens, who has been serving the church at Rich for some time and is doing a splendid work, is devoting part of his time to the Lafayette church.

The Lafayette people have been strenuously busy for some time in raising money for a building and have about completed a beautiful little church of a seating capacity of about 200.

All roads will lead to Lafayette next Sunday. Arrangements for the dedication ceremonies have all been completed and everybody will be welcomed. Rev. H. W. Elliott, of Trimble county, has consented to be there and preach the dedictory sermon. Mr. Elliott is secretary of the Kentucky Missionary Society of his denomination and is a speaker of wide reputation. He has cheerfully consented to leave his home at Sulphur Springs, this state, and go to Lafayette and assist his enthusiastic brethren in setting aside their building for holy purposes. Dinner will be served on the ground.

STATE HAS GOOD COAL YEAR

Production for 1911 Attained a Value of More Than Thirteen Million Dollars.

The coal mined in Kentucky in 1911 amounted to 13,706,839 short tons, valued at the mines at \$13,617,217, according to a statement of Edward W. Parker, just issued by the United States Geological Survey. This was a decrease compared with the production for 1910 of 916,480 short tons which, considering the abnormal increase in 1910 due to strikes in other coal-producing States, is considered small. Altogether, Mr. Parker says, the year 1911 may be considered as generally satisfactory to the coal-mining industry of Kentucky, for in both production and value there was a substantial increase over any year prior to 1910. Compared with 1907, when the previous maximum tonnage was recorded, the production in 1911 showed an increase of nearly 3,000,000 tons in quantity and of more than \$2,200,000 in value.

The number of men employed in the coal mines of Kentucky in 1911 was 21,821; about half of these worked ten hours a day, about one fourth nine hours a day, and the others eight hours a day. The average production for each man in these mines was 628 tons for the year and 3 3 tons for each working day. New mining and transportation developments will, it is believed, result in substantial gains in production in the near future.

Kentucky is one of the leading States in the mining of coal by the use of machines, ranking next to Ohio in the percentage of machine-mined tonnage to the total production. In 1911 more than 65 per cent of the output, or 9,002,288 short tons, was mined by machines. The proportion of Kentucky coal that is shot off the solid is also much less than in the neighboring States, where the use of mining machinery has not been so highly developed.

ALL EYES ON HOPKINSVILLE

Arranged By the Citizens in Celebration of the Success
Attained By the Biplane Inventions of Former County
Judge Prowse—Kitty League Baseball.

There will be happy days in Hopkinsville, Thursday, Friday and Saturday, July 25, 26 and 27. The citizens of the best of all towns will give an absolutely free aviation meet, to which everybody is invited to celebrate the completion and successful achievements of the two great biplanes built by Judge Chas. O. Prowse.

At least three flights each afternoon will be made by DeLloyd Thompson, an intrepid young birdman and licensed operator of Chicago, who for the last two weeks has had Hopkinsville thrilled with excitement by soaring daily thousands of feet into the sky and for many miles around in the country. In some of his flights he

has carried a passenger. Judge Prowse has one machine for fancy exhibitions and another for passenger purposes.

There will be no charge for admission to the aviation field, the entire expense, heavy as it is, being borne by Hopkinsville people to entertain the people of this region and as a testimonial of the regard and pride they feel in Kentucky's only airship inventor.

There will be Kitty League baseball games each day of the meet. Application has been made for reduced rates, and it is expected that a large number of people from adjoining towns will come to Hopkinsville and enjoy the gala event.

FROM REV. E. B. LANDIS.

Dominion Line, S. S. "Canada,"
July 5, 1912.

Dear Friends:
I am writing this on board the steamer in order to mail it at the docks, which will save a day or two on its way back to America.

Ordinarily an ocean voyage is filled with so much of the sameness that time drags upon one's hands, but this trip thus far has been filled with interest, every day bringing some new interest before us.

When I reached Montreal I met my brother, a Presbyterian minister from Los Angeles, Cal., and the Rev. T. M. Hurst, of Charleston, Ind., who was sometime pastor at Sturgis, Ky. We went aboard our steamer, "Canada," Friday night about 10 o'clock, for the vessel was to leave port at 2 a. m. Saturday. The loading of the vessel was almost as interesting to me as most small boys, so I began at once to "sit up and take notice." I was, however, sleeping soundly when we left port, waking about my regular time for "first call for breakfast," at the sound of the ship bugler. It was a most beautiful day, and the ride down the St. Lawrence river was full of interest, looking first on the one side then on the other at the mountainous shore line, with the little French villages in the valley and coves by the water's edge.

Just after noon we reached Quebec, our steamer lying in harbor until 7 p. m., giving us a chance to see the sights of this old fortress city. The details of any city may be of interest, but I will not attempt to write this in my letter.

Promptly at 7 o'clock Saturday we pulled off from the pier out into the river and on to the sea. Because of the ice in the northern route past Belle Isle, our captain took the Southern route past Cape Race, 200 miles further to Liverpool than the Northern route. This shore line is known to ocean travelers as the graveyard of the Atlantic. Here the shore line is guarded most carefully by towers, which warn every ship at periods from 30 seconds to two minutes apart—one of the best protected shore lines known. The river has by this time widened until it is very wide—in some places ten miles or more. Sunday we had three religious services aboard, conducted by an aged minister of the Church of England, the sermon in morning being delivered by a Presbyterian clergyman from Hamilton, Ontario. By this time we were beginning to

get acquainted and we all entered most heartily into the singing of the grand old hymns that were used in these services. Many talented musicians are aboard, so our music is led by trained voices.

Land could be seen much longer than we really thought, for I had grown accustomed to the constant pounding of the monster engine long before we saw the last glimpses of the land—having seen the last point Monday night at 8 o'clock.

The change of temperature was so great that I was uncomfortable—it was growing too cold for a Southerner. I had called for an extra blanket, which made two heavy blankets and I used my overcoat and other coats on top of that before I could keep warm. Imagine our surprise however to hear the ship captain tell us Tuesday that at early dawn we passed our first iceberg. We were warned that there were 15 seen the day before. The day was glorious and from 5 a. m. to 10:30 p. m. thirteen were in the range of our vessel. A number of kodak pictures were made of some of them. Here are the captain's dimensions of one: 1,000 feet long, 150 feet above water, (7 times as deep under water as above, making it about 1000 feet high), 400 feet wide; a large tunnel through it made by current water; 1,000,000 tons in weight, which is a monster by the side of our ship of 10,000 tons displacement. This berg drifts toward the gulf stream about 15 miles in a day. They were from half mile to 5 miles from our ship. The thermometer was 35 degrees on our vessel.

The next day was full of interest as we ran through several schools of porpoises and saw a number of whales. The whales were close enough to see them play and "spout" while the porpoises were right alongside the vessel. Many varieties of sea gulls or birds have been seen every day out on mid-ocean. Where they nest and how they live are some questions that interest us passengers.

July 1st is "Dominion Day" for Canadians, so we had an appropriate celebration in the evening, and we from the States, began to plan for the celebration of the Fourth.

In the afternoon we had "Duck Sports" which was our "Field Day." Prizes were offered for every contest and we were beaten by Canada and to relate, Great Britain, Canada

BUD HOPKINS
MEETS DEATH

At Hinsleytown While Resisting
Arrest For Disorderly
Conduct.

OFFICER JONES SHOT HIM.

Affair Occurred at Nine O'clock
Saturday Night—Coroner's
Inquest.

Deputy Sheriff Ed Jones shot and killed a negro named Bud Hopkins, aged about 25, at Hinsleytown, near Edgerton, Saturday night about nine o'clock. Hopkins was creating a disturbance on the highway and Jones undertook to arrest him and Hopkins became belligerent and Jones shot at him and missed him, Hopkins disappeared and later returned to where Jones was and his story is was advancing upon him in a threatening manner when the officer fired and killed him. Justice Walton Garrett held an inquest Sunday morning and a verdict of homicide in self defense was returned. The killing occurred in the same district where Tom Slaughter killed a white man named Lee Jenkins last winter and the negroes have been very troublesome of late and a local deputy sheriff was needed to keep order in the district. Jones is an intrepid and determined officer and the belief is general that the trouble was forced upon him. A brother of Hopkins took part in the affair and was driven off by the officer, who beat him over the head with his pistol.

Jones came to the city yesterday morning and gave himself up. Judge Knight inquired into the case and put Jones under bond of \$1,000 to appear before the September grand jury. The bond was promptly made.

LEAVE FOR
ANNISTON

Co. D Will Leave Next Thursday Over L. & N. in Fine Condition.

COLONEL HENRY AND STAFF.

Third Regiment State Guard Will Show Up Finely in Maneuvers.

The young men of Co. D have been drilling every night for two weeks or more getting in readiness to take part in the army maneuvers going on at Anniston, Ala.

Capt. E. W. Clark and the other commissioned officers of the company are as enthusiastic as the privates and they all expect to maintain the reputation of the company as the best drilled in the State Guard.

Col. Jouett Henry is looking forward with great interest to the time when his regiment appears in the field to take part in the maneuvers. He expects about 600, or a little less, of his regiment to go on the encampment. His staff officers are:

Capt. A. G. Chapman, Adjutant.

Capt. C. H. Tandy, Commissary.

Capt. B. G. Nelson, Quartermaster.

The State Guard is now a part of the regular army and when called to go into camp for drill or when called into service are subject to the regulations governing the army the same as the regulars.

The regiment will be in camp ten days and the Government will furnish all the supplies, tents, camp equipage and transportation. Officers and men will receive the same pay, beginning with the time of leaving and including the day of breaking camp, as that of the regulars.

The Third Regiment Band, under the leadership of Harry Lebkeucher, who is really the father of the organization, will, of course, go with the regiment. He has had his men practicing regularly, and he expects them to win new laurels at Anniston.

Col. Henry and his staff, the officers and men of Co. D and the best military band in Kentucky, all have the best wishes of our citizens for a glorious time during the encampment and that they may put up the best showing of any regiment in the national Guard.

Secured Fine Animal.

Giles & Williams, of Howell, have received a very fine Aberdeen-Angus bull, bought from Stanley R. Pierce, president of Aberdeen-Angus Breeders Association, of Chicago. This bull is to head a small but select herd of registered Angus cattle, now established on their farm. This breed is unquestionable the best of all breeds of beef cattle, as they have taken three-fourths of all international premiums. Farmers of Christian county are cordially invited to inspect them at any time.

Cerebro Spinal Meningitis.

B. F. Champion, deputy sheriff of Livingston county, died at the Western Asylum July 19, from cerebro spinal meningitis, aged 32 years. Sunstroke was a contributory cause, the young man having become overheated about two weeks ago. He had been in the asylum only two days.

Wedding Postponed.

Fairfield, Ill., July 19.—E. M. Micks, of this city, and Miss Nell Butler, had to postpone their wedding a day when the groom was forced to serve on a jury over night. The whole town was in the practical jokers' mood, and the bride, as jury, criminals and justice, were jokers.

The unseating of Senator Lorimer creates no vacancy and Gov. Deneen has no power to appoint a successor. Thus holds Attorney General Stead in a voluminous opinion rendered to the Governor of Illinois.

In contending there is no vacancy within the meaning of the Constitution, Gen. Stead cites as analogous the cases of Lee Mantle of Montana and Matthew S. Quay of Pennsylvania.

"What a Girl Expects of a Man," is the subject of a lively article in the August Woman's Home Companion. Another interesting article in the same number is an account of how a girl can earn her way through college—at least partially. The author of the article is a girl who did the very thing she writes about.

A feature of considerable importance, as well as interesting, is an account of "The American Girl Out

"What Your Handwriting Tells" is a contribution full of fascinating information about character as revealed by one's pen.

There Can Be No Doubt About ether sults in Hopkinsville.

Results tell the tale. All doubt is removed. The testimony of a Hopkinsville citizen can be easily investigated. What better proof can be had? Mrs. J. E. O'Daniel, 603 O'Neal street, Hopkinsville, Ky., says: "I can recommend Doan's Kidney Pills for they have done me a great deal of good, whenever I have had occasion to use them. For some time I had suffered from pains in my back and sides and other troubles, arising from weak kidneys. Seeing Doan's Kidney Pills highly recommended in the papers, I got a box and used them as directed. They quickly cured me and I know they are the best kidney remedy to be had. I always advise friends and acquaintances to give them a trial." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

The Italian treatment. The Italians resort to a very simple method when they wish to obliterate the injurious effects of salt air and sunshine after a visit to their villas, the shore of the Adriatic, the Tyrrhenian sea or the lakes. They bathe the face with the white of an egg, well beaten, let it dry on the skin and rinse it off in soft water after fifteen minutes. The treatment is repeated three or four times, and always at night just before retiring.

Most disfiguring skin eruptions, scrofula, pimples, rashes, etc., are due to impure blood. Burdock Bitters as a cleansing blood tonic, is well recommended. \$1.00 at all stores.

Chinese Take to Roller Skates. Roller skating has recently become popular in Hong-Kong.

One way to relieve habitual constipation is to take regularly a mild laxative. Doan's Regulents are recommended for this purpose. 25c a box at all drug stores.

The August American Magazine is a story number. It contains an amusing love story told in baseball vernacular by George Fitch; a dog story by John A. Moroso; a love story by Lucile Baldwin Van Slyke; a remarkable yarn by Albert Hickman about a drunken man who bragged too much and got "taken down a few pegs"; a story of adventure and gambling by William J. Lecket and Emma McChesney story by Edna Ferber; and a Phoebe and Ernest story by Inez Haynes Gilmore. One of the attractions of the August American is an astonishing and amusing characterization of Theodore Roosevelt and President Taft written by F. P. Dunne ("Mr. Doc-ley") in The Interpreter's House, in which Mr. Dunne really gives a satisfactory explanation for Roosevelt's enthusiasm about Taft in 1908. Other important contributions to the number are stories of baseball "fans" by Hugh S. Fullerton, "The First Night Ordeal," a theatrical article by Walter Pritchard Eaton, "A Woman and Her Raiment," by Ida M. Tarbell, and the department "Interesting People," in which appear this month sketches and pictures of five men and women whose stories make excellent reading.

Itching piles provoke profanity but profanity won't remove them. Doan's Ointment is recommended for itching, bleeding or protruding piles. 50c at any drug store.

Another "General" Killed. Santiago, July 19—Gen. Pedro Ivonet, the negro rebel leader, was killed yesterday morning at Nueva Escocia, by government troops.

For earache, toothache, pains, burns, scalds, sore throat, try Dr. Thomas' Electric Oil, a splendid remedy for emergencies.

Chinese Business Methods. Most of the Chinese business houses are now owned by partnerships, and most partnerships are of a large number of persons. The Chinese who has saved \$100 local currency will at once invest it in a mercantile business and become a partner.

NEGRO SHOT

Saturday Night But Wound Not Serious.

Deputy Sheriff Herbert Johnson was called Saturday night to the house of Docia Munford, outside the city limits, near Cedar Grove, to arrest a negro man by the name of Chrys Pryor, who had shot Will Wills, also colored.

When Mr. Johnson reached the house named he found that one shot had entered Will's abdomen on the right side, coming out on the left, but he did not think the wound would prove serious.

Pryor immediately left after the shooting and is still at large. Pryor's wife, the sheriff says, was the cause of the shooting.

IN THE OLD-FASHIONED WAY

Domestic Woman Gives Young Housekeeper Valuable Points on Making Soda Biscuit.

The old-fashioned domestic woman was telling the young housekeeper how to make soda biscuit, according to the New York Evening Sun.

"You take," said she, "some milk or sour cream."

"How much?"

"As much as you can spare," said the old-fashioned domestic woman.

"Then you sift your flour with your baking powder—if you use it."

"How much flour?" asked the young housekeeper.

"That depends, of course, on the amount of milk and the number of people you are baking for," said the old-fashioned domestic woman.

"Then you make a dough that is stiff enough—"

"How stiff is that?"

"Well, that you have to learn by experience."

"Rub in the butter just before you add the milk, and while you mustn't scrimp the butter you must be careful not to use too much. Then you either drop the dough with a spoon or cut it with a biscuit cutter. The oven must be just hot enough, and not too hot; and be sure to take the biscuits out the moment they are done."

"How can I tell when they're done?" asked the young housekeeper.

"Why, they'll look just right when they're ready," said the old-fashioned domestic woman.

Aid for the Invalid.

A stick of the right sort will help an invalid in many ways. It should be strong, yet light, with a stout iron hook on one end and a knob on the other. This will enable an invalid to adjust curtains, raise and lower shades and windows, push her rolling chair or move a screen, and aid herself in a variety of other ways.

No Kick Coming.

"Some say there is a sucker born every minute." "I don't know anything about that," responded the eminent trust magnate. "I cater to ultimate consumers and the birth rate is very satisfactory as to them."

BRICK BUILDING.

To Take Place Of Iron Clad Structure On North Virginia.

The Homestead Investment agency has purchased of Mrs. L. Yonts her two-story iron clad building on North Virginia street and the company expects at an early date to replace the building with a substantial brick building. The first floor of the new structure will be made into three store rooms and the upper portion will probably be used as a shirt and overall factory. The price paid for the property was not made public.

STRANGER

Floundering In the River Rescued By W. D. Ennis.

A stranger who was bathing at Edgewater Park Sunday afternoon got into a boat on the river and fell out and although he had on a bathing suit, appeared to be drowning. After sinking twice he was pulled out by Mr. W. D. Ennis, who swam to him. After reaching the bank, his first act was to ask for a cigarette. Opinions differ as to whether he was in danger or "doing a stunt." A large crowd was present.

BELIEVE IN SACRED WATERS

Long Custom Has Made Tank a Place of Pilgrimage for the Faithful in India.

A remarkable Indian ceremony is the Kumbhakonam Mahahakam festival. This feast takes place once a year, but the Hindu gods are supposed to visit the sacred tank on each twelfth anniversary. It is said that the god Brahma once requested Siva to collect the essence of all the waters in the world.

It is understood that Siva succeeded in doing this, placing the fluid in a pot which he hid away on the top of a mountain. During the flood this pot floated away from its position and when the waters subsided it rested at a spot some distance away now known as Kumbakonam.

Siva, who happened to be hunting in the vicinity, saw the pot and drawing his bow and arrow shot at it with disastrous results. The water rushing out filled a hollow and this at the present time is the renowned tank. This tank is now a place of pilgrimage, where during the festival untold thousands of the faithful dip themselves in the wonderful water, which is credited with all sorts of magical attributes.—Wide World.

LEECH A WEATHER PROPHET

Actions of the Small Insect in Jar Will Tell You What You May Expect.

A leech kept in a glass jar of water is an excellent weather prophet. The jar should contain about three gills of water, which should be changed once a week in summer, every ten days in winter.

When the leech lies at the bottom of the jar and curled up in spiral form you may reasonably rely on fine weather.

If, however, it creeps up to the top of the jar and remains there, rain is coming.

When the leech darts about its lodging with great swiftness, it is not suffering from a pain, but is telling you to look out for wind.

If a hurricane is on its way the leech will be more out of the water than in and will have convulsive movements. The jar, by the way, should be only partially filled with water, while the top should be covered with muslin.

When Jack Frost is going to pay us a visit the leech behaves as when foretelling fine weather—i. e., he lies at the bottom of the jar; but when snow is coming he climbs right up to the mouth of the jar and sticks there.

FUTILITY OF EDUCATION.

Dr. Lawrence C. Abbott of Cleveland, at the recent convention of railway surgeons in Philadelphia, said of a safety device that has averted many railway accidents:

"The advantage of this device is now almost universally recognized. Indeed, the railroader who disputes its advantage is as antiquated as the old resident who said:

"Education be hanged! That's young Bill Smithers took an engineering course in a correspondence school and then put up a sign on his carriage house, and hadn't no better sense than to spell 'carriage' 'garage'!"

IN THE NATURAL WAY.

"I've just bought a splendid talking machine for \$100."

"That's nothing. I got one for nothing."

"How did you manage to do that?"

"I married it."

INVOLVED TERMS.

Sue—I could hardly keep my countenance when Ned spoke of our secret.

Prue—But you did, didn't you? Sue—Oh, yes; otherwise I would have given it away.

NATURAL RESULT.

"So Dibble is playing golf for his health?"

"Yes."

"Any improvement?"

"His health is better, but his language is worse."

SLIGHTLY IN ERROR.

"He seems to think he is the man of the hour."

"As a matter of fact he couldn't hold the world's attention five seconds."

JIM THORPE Full Blooded Indian World's Champion Athlete.

Thorpe, the full-blooded Indian, from the Carlisle (Pa.) Indian Training school, was made the hero of the American team which gained such an overwhelming victory at the International Athletic games, at Stockholm, Sweden. He proved himself to be the greatest all-around athlete in the world when he won the decathlon competition, the final track and field event of the great meet. The competition included the 100-meter flat race, running broad jump, putting the weight, running high jump, 400-meter flat race, 110-meter hurdle race, throwing the discus, pole jump, throwing the javelin and a 1500-meter flat race. Thorpe won with 8,412 points out of a possible 10,000, first place in each of the ten events counting 1,000 points. His nearest competitor was Weislander, of Sweden, with a score of 7,724. Thorpe also won first place in the pentathlon, another all-round competition, which, however, did not include as many events.

A Girl's Wild Mid-Night Ride.

To warn people of a fearful forest fire in the Catskills a young girl rode horseback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease," writes W. R. Patterson, Wellington, Tex., "after four in our family had died with consumption, and I gained 87 pounds." Nothing so sure and safe for all throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

Mayfield's Method.

Mayfield, Ky., July 19.—The crusade on dogs has been in earnest in this city, and boys are being paid fifteen cents for each dog that is brought to Chief of Police McNutt without a tag showing that a tax of \$1 has been paid on the canine. Over 100 dogs have been paid on and a large number taken up and put in the city pound to remain for a few days, when they will be taken out and killed.

A Hero in a Lighthouse.

For years J. S. Donahue, South Haven, Mich., a civil war captain, as a lighthouse keeper, averted awful wrecks, but a queer fact is, he might have been a wreck himself, if Electric Bitters had not prevented. "They cured me of kidney trouble and chills," he writes, "after I had taken other so called cures for years, without benefit and they also improved my sight. Now, at seventy, I am feeling fine." For dyspepsia, indigestion, all stomach, liver and kidney troubles, they're without equal. Try them. Only 50 cents at all druggists.

P. P. MASON Passes Away Near Gracey After Long Illness.

Peter P. Mason, a well known and much esteemed citizen of the Gracey neighborhood, died last Friday at the home of Mr. Sidney Stewart, two miles northeast of Gracey. Mr. Mason had been suffering from a complication of diseases for several months, but the immediate cause of death was jaundice. He was 75 years old and a member of the Methodist church. He was a native of this county and had resided in the same neighborhood all his life, excepting two years which were spent at Little Cypress, not far from Paducah, where his wife died about four years ago. His remains were taken to Little Cypress Saturday and were laid by the side of those of his wife. Mr. Mason leaves no children. One nephew, Walter Faulkner, resides in this city.

WARM WAVE

Headed Off Until The End Of Week.

Washington, July 21.—Moderate temperatures will prevail over the northern half of the country during the first of the coming week, according to the weather bureau bulletin issued tonight. Warmer weather will reach the extreme northwest about Thursday, extending eastward to the Atlantic at the end of the week, the temperature continuing in the west. In the extreme central west and in the South he week will be generally fair except in the gulf and south Atlantic states, where showers are probable during the second half of the week.

HER GREETINGS FROM TAFT

Small Girl Gets the Message, With a Ducking by Imaginative Brother.

When President Taft spoke in Ridgewood, N. J., one of the interested listeners was Foster Sanford, Jr., the ten-year-old son of the Yale football coach. Foster's smaller sister, Mandy, wanted to go, but she was told she was too young. She forgot her disappointment, however, when her brother returned and told her that the president had sent her his love. Taking advantage of his importance, the boy has been steadily adding to the message from the president ever since.

A few days ago, shortly after Mandy had been carefully dressed for the evening, she went down into the yard where her brother was sprinkling the lawn with the garden hose.

"Mandy," said the boy, "the president told me to tell your fortune." "Did he?" was Mandy's quick reply, with her eyes as big as saucers. "Yes, he told me that before very long you were going to get wet."

She did not have long to wait. Running into the house with her new hair ribbon and what had been fluffy skirts dripping water, she screamed:

"And he said the president told him to do it."—New York Evening Post.

FINDS A CURE FOR CHOLERA?

French Physicians in Tunis Are Now Using Injections of Bacilli to Stop the Plague.

The Paris Matin says that the physicians at the Pasteur institute at Tunis have achieved success with the new prophylactic method of treating Asiatic cholera. Briefly it consists of injection of the comma-bacilli found in the intestines of cholera patients. It is said that the blood thereby becomes extremely rich and renders persons immune from the contagion. Three physicians, Nicolle, Coner and Conseil, experimented on themselves and also swallowed the bacilli. Dr. Reux, in reporting the matter to the academy of sciences said that even if the efficacy of the experiments were not proved they were interesting and deserved to be followed up.

THE DIFFERENCE.

Senator Dixon, during the squabble about convention seats for Colonel Roosevelt's friends, told a reporter that there was a startling difference in the way the committee treated one side and the other.

"It is as startling, as ludicrously startling," he said, "as the difference between a farmer and an agriculturist."

"A farmer, you know, chews plug tobacco and whittles a stick, while an agriculturist—"

He paused, then said impressively:

"An agriculturist smokes Egyptian cigarettes and plays the piano."

GOOD WORK OF WOMEN.

Although women have only been admitted to the school boards of Wurttemberg for the last two years, and the women teachers have only exercised the school suffrage for the same length of time, they have already improved the school conditions of that kingdom very considerably. It was through their efforts that special housekeeping schools were opened for girls, while the raising of the school age and the compulsory attendance at the evening schools till the age of eighteen years was reached may also be accredited to their presence on the board.

FAULTY EDUCATION.

"I have just been talking to a youth who claims to have done everything."

"Has he ever wrapped a motor car around a telegraph pole at three o'clock in the morning?"

"I think not."

"Then he has a great deal to learn."

SAME THING.

Choccos Indians of Panama Free With Simple Hospitality and Small Wants.

Professor Pittier of the United States agricultural department, who was recently sent to Panama for botanical study, has done some remarkable work for the Smithsonian institution in regard to exploring among the original inhabitants of that region.

He visited a tribe of Indians known as the Choccos. They lived on the southwestern coast of Panama, and Professor Pittier thinks they are descendants of the tribes which inhabited that part of the world when Columbus discovered Santo Domingo.

They are tall and stalwart, with kindly natures, a free hospitality and an innate honesty. Few white men have ever been among them. Tribes of a somewhat similar nature are also found on the southeast coast, many of them having never seen a white face in their lives. While the Republic of Panama nominally rules this section, the truth is that these Indians govern themselves entirely, have absolutely no intercourse with the whites, do not allow a white man to visit their lands and still fly the Colombian flag.

Their houses are grass huts, their clothing is almost nothing, but they seem to enjoy life in spite of the fact that they are unacquainted with the benefits of religion, fashion, society and government.

LENGTHY IMPRISONMENT.

A pit pony which was imprisoned in an English mine at Bestwood, Nottinghamshire, by a heavy fall of roof, was rescued alive and well, the other day, after a fortnight's imprisonment. The pony was helping to clear the roads which had fallen into disrepair owing to the strike when the fall, amounting to several hundreds of tons of rock, took place. The miners immediately set to work to rescue the animal. First a narrow avenue was forced, and through this food and water was pushed to the pony. Meanwhile excavations were steadily progressing, and the pony was finally liberated little the worse for its experience.

LARGEST ELECTRIC SIGN.

The largest single electric sign in the world depicts a baby's face that alternately smiles and sheds tears on the crowds that throng Broadway, New York. The smile is some twelve feet wide when it reaches its fullest development and each individual tear is two feet by ten inches wide. The sign itself is 85 feet high by 106 feet wide and contains a total of 9,010 square feet of space. The child's head is forty feet high. The sign weighs 80 tons and contains 4,050 electric lights.—Popular Mechanics.

FINESSE.

"Papa, you know that George, who proposed to me last night, is coming for his answer this evening, don't you?"

"Yes."

"O, thank you, papa! That is the answer I was going to give him, anyway!"

HER PREROGATIVE.

Mrs. Eze—So the umpire's wife doesn't attend the ball game any more?

Mrs. Wye—No; it was so aggravating to her to see him get the last word.

She Broke Down Entirely

Lantz, W. Va.—Mrs. Tobe Talbot, of this place, says: "I had been troubled with womanly ailments for some time, and at last I broke down entirely. I got so weak I could scarcely walk across the room. Thanks to Cardui, I improved right off. Now I do my housework, and am feeling well." During the past 50 years, more than a million women have been benefited by taking Cardui. You must believe that Cardui will help you, too, since it helped all these others. Cardui is a safe, harmless, vegetable remedy, of positive, curative merit, for women. At drug stores. Try one bottle. It will surely help you.

The August Wide World Magazine.

The Wide World for August is a particularly interesting number. A. E. Johnson describes and illustrates "The Black Forest and Its People;" Randall R. Howard writes a stirring paper on "Hunting the Wild Horses of the West;" and Jack Woodson describes "The Dog Derby of Alaska." John Boyes continues the romantic story of "How I Became a King," and F. Harris Deans brings to a conclusion the amusing account of his European walking tour in which he covered fourteen hundred miles on foot. "The Bridge Assignment," "Alone on a Runaway Train" and "A Death-Voyage at Niagara" are accounts of thrilling adventures. This number is excellently illustrated.

Metal in New Caledonia. Nickel mining is active in New Caledonia. European firms are investing largely in it and other mining. Some fair gold discoveries have been made recently.

The Latest Machine Invented

The Prosperity Collar Moulder is and has been in use at Hopkinsville Steam Laundry for two months. The machine spoken of will eliminate broken edges on fold collars, gives space for tie to slide, and collar with nice oval edge looks better and feels better than the saw edge kind. We have exclusive use of said Machine in Hopkinsville.

Our shirts are encased in sanitary Protex cover which costs more, but looks better and keeps in nicer shape than other methods, but customer pays no more than for other work. Get in line, buy a \$5 book and help The Avalon along. Metcalfe will appreciate your assistance in a worthy cause for Hopkinsville and surrounding country.

A FINE LINE OF COPY-RIGHTED ART CALENDARS.

The plans for your advertising campaign this year should by all means include a handsome Art Advertising Calendar for 1913. We have secured the exclusive agency for the Copyrighted Calendars produced by the A. M. Collins Mfg. Co., of Philadelphia.

This is one of the largest and most substantial Calendar houses in the United States, and the quality of their line is superior to that of any ever shown in this section.

This line will be handled exclusively by us in Christian and Trigg counties. It includes a great number and variety of subjects in full color, as well as some hand colored pictures of exceptional beauty.

The samples for 1913 will be in our hands shortly, and we shall be glad to show them to you at an early date. MAKE NO PLANS FOR YOUR 1913 CALENDAR UNTIL YOU SEE THIS EXTRAORDINARY LINE. HOPKINSVILLE KENTUCKIAN.

FONDNESS FOR THE DANCE

German Peasant Will Trudge for
Miles in Hot Weather to Enjoy
the Amusement.

The German peasant loves his pipe and his beer, and on a Sunday afternoon his game of Kegel; but on high days and holidays he likes to be dancing. He and she will trudge for miles to dance at some distant village inn. You meet them dressed in their best clothes, walking barefoot and carrying clean boots and stockings. How they can dance in tight boots after a long, hot walk on a dusty road you must be a German peasant yourself to understand. The dance I remember best took place in a barn belonging to a village inn in Bavaria. I went with several English friends to look on at it, and the men of our party danced with some of the village girls. The room was only lighted by a few candles and it was so crowded that while everyone was dancing everyone was hustled. But we were told that anyone who chose could "buy the floor" for a time by giving sixpence or a shilling to the band. Two of the Englishmen did this and the crowd looked on in solemn approval while they waltzed once or twice round with the pretty granddaughters of our hosts.—From "Home Life in Germany," by Mrs. Alfred Sidgwick.

DRAW YOUR OWN CONCLUSION

Man May or May Not Have Been Hen-
pecked, but Here Are Facts
Vouched for by Grouch.

A couple of old grouches at the Metropolitan club in Washington were one night speaking of an old friend who, upon his marriage, took up his residence in another city. One of the grouches had recently visited the old friend, and, naturally, the other grouch wanted news of the benedict.

"Is it true that he is henpecked?" asked the second grouch.

"I wouldn't say just that," grimly responded the first grouch, "but I'll tell you of a little incident in their household that came within my observation. The very first morning I spent with them our old friend answered the letter carrier's whistle. As he returned to us, in the breakfast room, he carried a letter in his hand. Turning to his wife, he said: "'A letter for me, dear. May I open it?'"—Lippincott's.

VARIETIES OF EELS.

There is the broad nose eel, and then again there is the sharp nose eel. The great difference between these two varieties is that the broad-nosed eel is the male and the sharp-nosed eel is the female, both being really of one and the same family. When summer comes young eels by the millions school from midocean shore and wriggle up our rivers. Out at sea young eels are as clear as glass and as thin as ribbon. They are about four inches long, with a little head. The young eel seems not to eat at sea and only loses its glassy look and becomes colored as it gets to shore within reach of a river.—New York Press.

MORE ON THE BREAD QUESTION.

Because the coarser-grained breads are less easily digested—or possibly not so completely digested—is not of itself, sufficient to condemn them. Many of the foods most difficult to digest give us the greatest amount of nourishment. When you weigh the one over against the other, the argument will, after all, be in favor of the coarser foods—the foods containing the greatest amount of nutriment.

THE COLLECTION.

"I suppose, like all amateur fishermen, you caught a lot on your last fishing trip?"

"Didn't I, just! I caught the last train, a severe cold and a lecture from my wife."

INCONSISTENCY.

"I always try to keep from worrying over things that I can't help."

"But you have just been worrying because your wife agreed to meet you here more than an hour and a half ago."

DEFINED.

Freddie—Say, dad, what's morbid curiosity?

Cobwigger—That's what the fellow has who butts in ahead of you and keeps you from seeing anything.

A Splendid Tonic.

Cora, Ky.—Mrs. Iva Moore, of this place, says: "I was so weak, I could hardly walk. I tried Cardui, and was greatly relieved. It is a splendid tonic. I have recommended Cardui to many friends, who tried it with good results." Testimony like this comes unsolicited, from thousands of earnest women, who have been benefited by the timely use of that successful tonic medicine, Cardui. Purley, vestable, mild, but reliable, Cardui well merits its high place in the esteem of those who have tried it. It relieves women's pains, and strengthens weak women. It is certainly worth a trial. Your druggist sells Cardui.

"STUDEBAKERS"

Won Everything in Contests on
the Fourth.

Details gathered the week following Independence Day indicate that "The Fourth" of 1912 was easily the biggest day that the United States has ever known in the number and variety of automobile contests which marked its celebration.

The two "big" meets of the celebration were at opposite extremes of the country—Tacoma, Wash., and O'd Orchard Beach, Me. In addition, however, there were local track races and hill climbs all over the country, particularly in the far west and the south. Motorists on the Pacific Coast, and those interested from the buying standpoint watched with particular care the light car race at Tacoma, in which was entered a very representative field, including two Fords, two Studebakers, an Oakland and others, as well as the 1910 Maxwell car which recently amazed all beholders by winning the light car race at Santa Monica. The event turned out a sweeping Studebaker victory, Evans and Tower finishing first and second, each driving the 100 miles at a rate faster than a mile a minute.

At Old Orchard Beach a Studebaker E-M-F "30" driven by Burke and entered by Charles Simerson of West Hoboken, N. J., scared all competitors out of the races to which it was eligible, winning three events by the walkover route.

Studebaker cars also swept the card at the Memphis meeting, winning three out of four races and taking second in the fourth after suffering from a foul which caused the disqualification of a 90 horsepower opponent. Driver Gibbs and his Studebaker Flanders "20" won in their class and in the class for 20-h. p. cars. Driver Dunnivan in another Studebaker "20" won the race for 40 h. p. cars and under.

At Los Angeles the Studebaker "20" again swept the boards, though Driver Kincaid stopped twice—once to give first aid to a fatally injured driver and mechanic, and then to send back medical help.

A Studebaker "30" won the big hill climb at High Point, N. C., beating six competitors in the race.

For variety, there was a twenty-mile race on a half-mile track at Leadville, Col. The course is probably the highest in the world, being at a two-mile altitude above sea level. The event was won by a Studebaker E-M-F "30" A Pennsylvania finished second, and an Overland third.

DRINKING-CUP LAW

Does Not Apply to Public Schools, According to Attorney General Garnett.

In a written opinion given the County Board of Education of Barren county, Attorney General Garnett holds that the new law prohibiting the use of public drinking cups does not apply to public schools, because schools are not places frequented by the public, but by the same people every day.

This ruling comes as a surprise, as the abolition of the common drinking cup in schools was one of the chief arguments used in urging the passage of the law last winter. It is expected that the matter will be tested in the courts.

Fell 2,000 Feet.

While essaying a parachute jump at Quincy, Mass., Lawrence Stafford fell 2,000 feet to the bottom of the bay. The youthful balloonist's mother met a similar fate some time ago.

PETITIONS CIRCULATED

Asking That a Vote Be Taken Oct. 2 Under the County Unit Law.

Committees of citizens favoring a vote on prohibition under the new county unit law began the circulation of petitions Friday night asking that an election be called Oct. 2 for the whole county. It is necessary to have 25 per cent. of the qualified voters in each of the 32 precincts of the county, and it is supposed similar petitions are being circulated throughout the county.

There are now 20 saloons and 2 wholesale houses in Hopkinsville and 2 saloons in Gracey and it is to close up these that the election is proposed.

Muhlenburg Boy.

Postoffice Inspector W. A. Cutman, Jr., Saturday presented Paul Pannell, of Muhlenburg County, before United States Commissioner A. H. Clark, here charged with embezzlement of money order cash. He is about 20 years old and a rural route carrier. He is a member of one of the foremost families of Muhlenburg County, his father being a leading Democratic politician. The young man was accompanied by his attorney and witnesses, but waived an examination and was held under \$500 bond to the Federal grand jury. He immediately furnished the bond and was released.

Will Go It Alone.

Bethel Ma'e College at Russellville, by a vote of its Trustees, has withdrawn its connection with the Baptist Education Society of Kentucky.

TEXAS MIDDY KILLED

BY FALL ON WARSHIP

He Had Climbed the Mainmast and Was Sliding Down When He Fell to Instant Death.

Annapolis, Md., July 22.—William L. Bullock, of Corsicana, Texas, a midshipman of six weeks' standing at the naval academy, was killed yesterday afternoon by falling from the top of the main mast of the Hartford to the deck, a distance of about one hundred feet. His neck was broken and he died instantly.

Bullock had just accomplished a feat which tradition demands of a new midshipman, the climbing of the main mast of the Hartford and the transfixing of his cap on the spike which adorns the top. He tried to slide down, but the rope burned his hands and in trying to get another hold he lost his balance and fell. He struck the cross bars in his descent and probably received his fatal injury then.

Mayor's Salary Raised.

Under a decision just rendered, Mayor Cassidy, of Lexington, will be paid a salary of \$3,600 a year, as provided under the act creating the commission government for that city, instead of \$3,000 the salary that obtained under the old charter.

Again Unseated.

Former Senator William Lorimer, of Illinois, was cut, bruised and stunned, but not otherwise seriously hurt, in an automobile accident near Clayville, Pa.
